## MANY PERSONS CAME IN TODAY ON TRAIN NO. 24

Train No. 24 arriving in Tonopah this morning from the north carried 61 passengers, the largest number in weeks. Of this number 29 alighted at Millers, presumably to accept employment in the Desert mill, while about 30 left the train in Tonopah, the remainder going on to Goldfield.

Increased passenger traffic to this section is indicative that better times are at hand, and causes a feeling of optimism to prevail in all sections. Most of the miners who have been out of employment are being placed in positions at the various properties throughout the district and a season of great prosperity now appears to be imminent.
